Internet Download Manager Description: Safari downloads work better, apps launch instantly, page loads zoom in and out automatically and the battery drains half as fast, just like in the real Safari. With Internet Download Manager you can:

- Start downloads at any time without the need to wait for queued downloads.
- Download all types of files even for popular browsers.
- Save the transmission of malwares with the download protection function.
- Add your favorite shortcut buttons to the downloads list view.
- Define a manual resume point and modify the file location for all downloads.
- Sort downloads to reach the desired state.
- Disable the settings of your browser to take full advantage of Internet Download Manager.

Internet Download Manager is a free and effective download accelerator software that will improve the performance of your downloads, and increase your downloading speed by up to 3 times. The most important features of the program:

- Start downloads at any time without waiting for the queued downloads.
- Download all types of files (e-books, videos, software, music, documents) for all popular browsers: Mozilla Firefox, Google Chrome, Opera, Microsoft Internet Explorer and Safari.
- Disable all Internet Explorer settings of the web browser, so you can fully take advantage of the software.
- Define a resume point and set the file

location and the download status. • Handle all types of files (JPEG, TIFF, GIF, Windows, e-books,
